

## THE HINDU

### Landscape beckons

To create a lens through which spectators can evaluate the world of landscape designs, “Tracing Narratives”, a travelling exhibition, is being held at India Habitat Centre.

Sanjay Prakash, core mentor of Future Institute, said, “The core of the exhibition lies in its aim to make garden central to discussion.”

Architect Pradeep Sachdeva will explain approach to landscape designing in an event on April 12. A sketching workshop will be conducted by landscape architect Madhup Mazumder. Vijay Dhasmana, a naturalist, will share his experience of rejuvenating Aravali Biodiversity Park in Gurugram, on April 19.

## THE ASIAN AGE

### ■ TRAVELLING LANDSCAPE DESIGNS

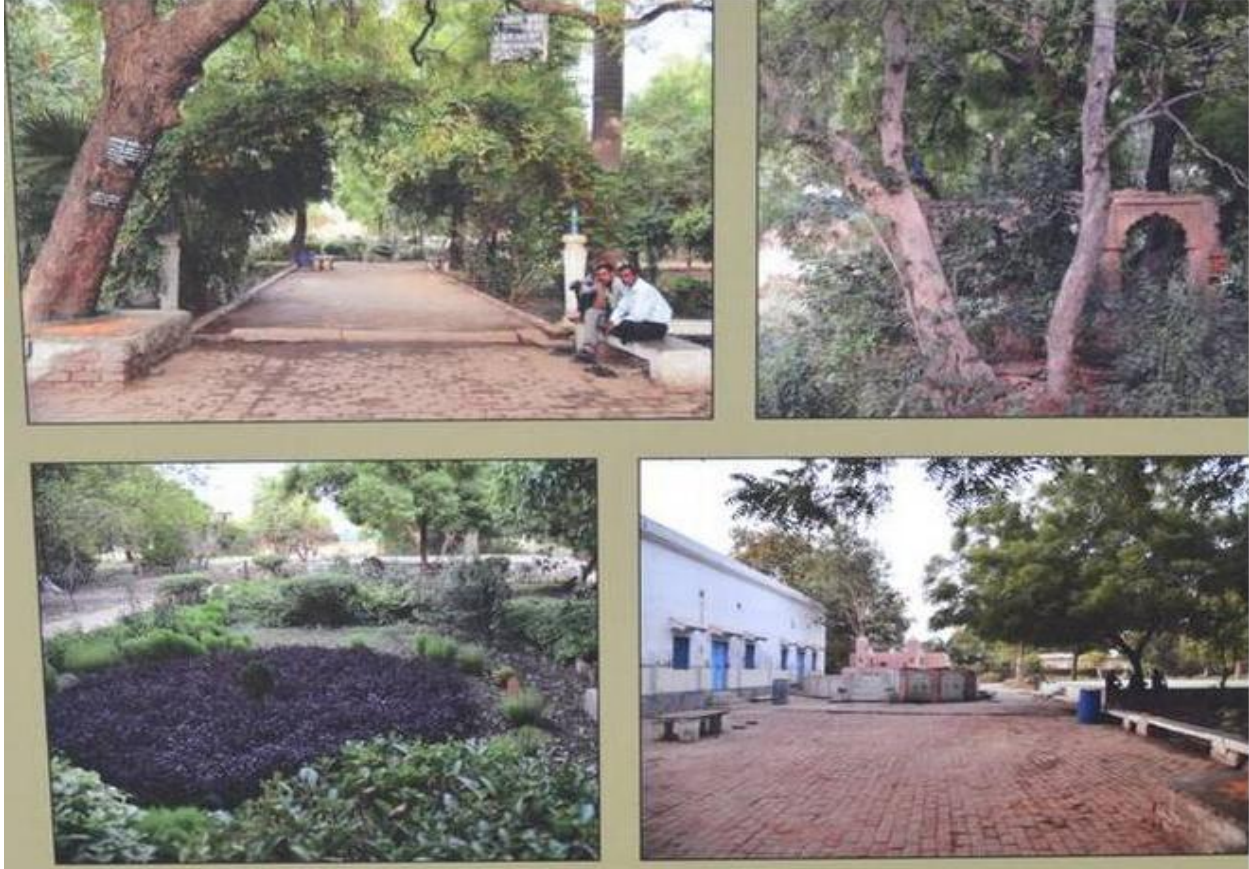

'Tracing Narratives' is a travelling exhibition on Indian landscape design. It attempts to create a lens through which the spectators evaluated the world of landscape designs and its many connotations in the present and near future.

Till April 24  
India Habitat Center
